

Leading-Edge Spinal Cord Injury Rehabilitation

Following a spinal cord injury, you or your loved one may feel unsure of next steps towards healing. At Good Shepherd Rehabilitation, we are here to guide you to a strong recovery. Our nationally recognized inpatient and outpatient spinal cord injury rehabilitation program has options for patients of any age to help them recover and return home.

Nationally Accredited & Patient Recommended

Accredited by the **Commission on Accreditation of Rehabilitation Facilities (CARF)**, a symbol of excellence that reflects our commitment to delivering the highest standard of care, our spinal cord injury rehabilitation program offers an individualized and interdisciplinary approach to each patient's recovery journey.

Good Shepherd is trusted by families for compassionate and comprehensive spinal cord injury rehabilitation, designing a specific plan to help them achieve their highest potential possible with hands-on care.

Wrap-Around Services

During the recovery process at Good Shepherd, our patients are informed of outpatient care options and resources after discharge:

- Physical, Occupational and/or Speech Therapies at 20 Outpatient Locations
- Lifetime Follow-up Care with Good Shepherd Physicians
- Adaptive Driving Program
- Fitness Programs (Including Adaptive Fitness)
- Assistive Technology
- Support Groups & Peer Mentors
- In-Home Outpatient Therapy
- Transitional Care Management

A Hospital Designed for Healing

Our state-of-the-art inpatient rehabilitation hospital in Center Valley, PA, is built to promote comfort and healing. From spacious private suites and inviting lounge areas for relaxation to advanced indoor therapy gyms and a peaceful outdoor activities garden perfect for walking practice, every detail is designed around the patient.

Families choose Good Shepherd for a setting that's as inviting as it is innovative. At our hospital, we utilize state-of-the-art technology and proven treatments to ensure our patients receive the highest quality of care. Good Shepherd's Fleming Center for Robotics in Rehabilitation has kept our hospital at the forefront of care and is the only rehabilitation robotics center in the region. Utilizing and testing robotic technology, our team guides patients on their road to independence.

“

They helped me get my independence back. **Because of Good Shepherd, I can do almost everything on my own.**”

Ken F.
Spinal cord injury patient
