A Hospital Designed for Healing

Our state-of-the-art inpatient rehabilitation hospital in Center Valley, PA, is built to promote comfort and healing. From spacious private suites and inviting lounge areas for relaxation to advanced indoor therapy gyms and a peaceful outdoor activities garden perfect for walking practice, every detail is designed around the patient.

Families choose Good Shepherd for a setting that is as inviting as it is innovative. At our hospital, we harness technologies of all types to aid in stroke recovery on the road back to independence. This includes advanced tools such as 3D printing and specialized gait-training equipment to support mobility.

“

I chose to come here because I knew **Good Shepherd's reputation**, and it's been everything I expected and more than I expected. I had a class-A experience.”
